

## Specification Change for J-Series Products

This is to express our many thanks for purchasing our products regularly.

We would like to inform you that the specifications for some of J-Series products have changed for certain reasons. The new specifications are included in our printed catalog 3010 Vol.3 (As of 1.April.2009). We have also updated the information on our web site.

Thank you for your understanding on this matter.

Sincerely,

**KHK Kohara Gear Industry Co., Ltd.**  
**Sales Department**

March 2009

### 1. Products

4	SS 2.5 - 13 J 15	4	SSG 3 - 14 J 20
5	SS 2.5 - 15 J 18		
6	SS 3 - 12 J 15		
7	SS 3 - 12 J 16		
8	SS 3 - 13 J 18		
9	SS 3 - 14 J 19		

### 2. Change

It is stopped to apply keyway processing. Only tapping is applied for shaft-fastening.  
(To prevent thinning of the hub area from keyway processing. )
