Revisions of Finished Bore Spiral Miter Gears

To whom it may concern,

First, we would like to express our gratitude to you for your frequent purchasing of our products.

We also would like to inform you that we have implemented specification changes for the following KHK products: **Finished Bore Spiral Miter Gears**. Revisions are made for the purpose of improvements in the usage of our products, so we know that you will appreciate, understand, and accept these changes. We announce these changes prior to implementation, to avoid inconvenience to you, our customer.

To keep offering you useful and safe-to-use products, we continue to make great efforts to modify our production system and the quality of our products. Again, we appreciate your continuous use of KHK products, thank you.

Regards,

Notification

1. Product: Finished Bore Spiral Miter Gears and these 6 items:

No.	Catalog No.	No.	Catalog No.
1	MMSA1-20R	5	MMSA1.5-20R
2	MMSA1-20L	6	MMSA1.5-20L
3	MMSB1-20R		
4	MMSB1-20L		

2.

Before Change

M4 Tap at the Hub, Number of taps: 1

After Change

M4 Tap at the Hub, Number of taps: 2

3. Improvement in Use

The products before the change has only one M4-tap that makes insecure in fastening to the shaft. The changed product has two of M4-taps so it can encourage fastening.

4. Implementation for shipping of revised products

Effective for shipments commencing June 21, 2010
